I will join @mldcmu and @CSDatCMU @SCSatCMU in Fall 2020 as an Assistant Professor. I am super grateful to my advisors, collaborators and @uwcse for a wonderful PhD journey. Looking forward to working with colleagues on more cross-stack research for future intelligent systems.

This wouldn't have been possible without the support I received along the way, wonderful mentors @gustarin @luisceze @goodfellow_ian @smolix, colleagues @ai_sampl and more, @GoogleAI for fellowship, and open source communities @XGBoostProject @ApacheTVM @ApacheMXNet
